

Watch Water USA

Filtersorb SP3 Sizing Information

The following tank sizes, liter usage, etc. relates to water with under 25 grains of hardness. It is recommended that you increase the Filtersorb SP3 liter usage by 5% per each additional 5 grains of hardness above 25 grains. The following systems are recommended up to 100 gallons per minute, for larger systems or questions about usage please contact Watch Water USA directly at 800-787-5300.

Residential Systems
